

ANTI-KINK HOSE CLAMPS

Anti-kink hose clamps help to prevent costly hose replacements and fines that damaged hoses can lead to. The clamp provides a five-point bolt-down system to fully secure the hose into place and prevent it from sliding out of position and coming into contact with the ground. Anti-kink hose clamps keep hoses up off the pavement and islands and away from vehicles tires. Hose run overs can inflict permanent damage which can lead to obstructed fuel and vapor flow paths and unnecessary forecourt hazards.

HIGHLIGHTS

- Compatible with both 5/8" and 3/4" hoses.
- Includes rubber insert for 5/8" hose installations.
- Resists hose slippage caused by excessive use.
- Two-piece clamshell design with durable glass-filled nylon construction.
- Works with retractor systems, whether as a factory-installed dispenser option or as an after market field retrofit to islands.
- Swiveling clevis provides freedom of movement.

ORDERING INFORMATION

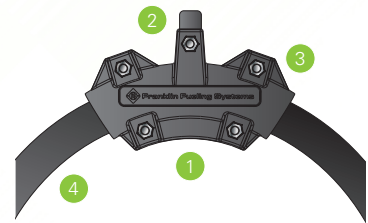

Model	Description
407924901	Anti-kink hose clamp for 5/8" and 3/4" hoses.

Note: Includes rubber insert for 5/8" hose installations.

SPECIFICATIONS

Components

- 1 Hose clamp
- 2 Clevis
