Standard Dispensing Hose

Flexsteel Futura

Our most ozone-resistant hose features the new Flexsteel Futurin cover that resists cracking, wear and fading for unmatched longevity. Flexsteel Futura is designed for dispensing gasoline, diesel, ethanol blends and biodiesel blends (up to B20).

- › Premium hardwall wire braid reinforcement
- › UL 330 and CUL approved
- › Extraordinarily resistant to ozone cracking and wear
- › Cover retains colors better with higher gloss
- › Quality hose construction, quality assemblies

BC Gasoline

With premium softwall construction, BC Gasoline is for all types of dispensing pump applications where kink resistance, flexibility and lighter weight are desired. This hose is designed for dispensing gasoline, diesel, ethanol blends and biodiesel blends (up to B20). BC Gasoline is available with one or two textile braids.

- › Premium softwall synthetic yarn braided reinforcement with static wire
- › UL 330 and CUL approved

Pacer

Superior 4-spiral softwall construction makes this hose ideal for use when flexibility and lighter weight are desired. Pacer is for all types of dispensing applications including gasoline, kerosene, diesel, ethanol blends and biodiesel (up to B20).

- › Spiral softwall synthetic yarn reinforcement with static wire
- › UL 330 and CUL approved
