Aggie Gas
BC Marina
BC Cold Flex

For use on systems requiring
E25/E85 UL listed equipment

Standard Dispensing Hose

Flexsteel Futura

Our most ozone-resistant hose features the new Flexsteel Futurin cover that resists cracking, wear and fading for unmatched longevity. Flexsteel Futura is designed for dispensing gasoline, diesel, ethanol blends and biodiesel blends (up to B20).

- › Premium hardwall wire braid reinforcement
- › UL 330 and CUL approved
- › Extraordinarily resistant to ozone cracking and wear
- › Cover retains colors better with higher gloss
- › Quality hose construction, quality assemblies

BC Gasoline

With premium softwall construction, BC Gasoline is for all types of dispensing pump applications where kink resistance, flexibility and lighter weight are desired. This hose is designed for dispensing gasoline, diesel, ethanol blends and biodiesel blends (up to B20). BC Gasoline is available with one or two textile braids.

- › Premium softwall synthetic yarn braided reinforcement with static wire
- › UL 330 and CUL approved

Pacer

Superior 4-spiral softwall construction makes this hose ideal for use when flexibility and lighter weight are desired. Pacer is for all types of dispensing applications including gasoline, kerosene, diesel, ethanol blends and biodiesel (up to B20).

- › Spiral softwall synthetic yarn reinforcement with static wire
- › UL 330 and CUL approved

Specialty Dispensing Hose

Aggie Gas

A multi-use hose for dispensing gasoline, grease, kerosene, ethanol blends, biodiesel blends (up to B20) and petroleum oils from farm and barrel-type pumps. Aggie Gas is for agricultural, construction and industrial service, where UL approval is not required.

- › Spiral softwall synthetic yarn reinforcement available with and without static wire
- › Bulk hose and assemblies available

BC Cold Flex

Only UL Approved cold temperature dispensing hose on the market.

A premium curb pump hose for use in extremely cold environments for dispensing gasoline, diesel, ethanol blends and biodiesel blends (up to B20). BC Cold Flex remains flexible when temperatures of -65°F (-54°C) are encountered.

- › Premium softwall synthetic yarn braided reinforcement with static wire
- › UL 330 and CUL approved
- › Black, wrapped low temp cover

BC Marina

A hose for dispensing gasoline to pleasure craft and commercial boats at fresh and salt water marinas. BC Marina's green covers resist marking boats.

- › Premium softwall synthetic yarn braided reinforcement with static wire
- › UL 330 and CUL approved
- › Green Chemivic™ synthetic rubber cover

DEF Dispensing Hose

New sizes available.

Stay ahead of the curve with our DEF Dispensing Hose. Specifically designed to dispense aqueous urea solutions for your diesel operations.

- › Minimize contamination
- › Reduce volumetric expansion
- › Meet ISO 22241 and NFPA 70 Standards

Flexsteel Futura Ethan-All

Only UL Approved E85 hose on the market.

Specifically designed, engineered and manufactured to meet stringent UL standards for ethanol dispensing.

- › For both E25 and E85 dispensing
- › Capable of handling all blends of ethanol - E1 to E100

ATTENTION: Any petroleum dispensing hose assembly for use at a service station or marina must be in accordance with UL 330, CAN/ULC-S612 and NPFA. Effective January 31, 2013, all assemblies must be UL approved and wear the identifying registered component marker  and produced by an approved assembler. A hose that is not UL approved for petroleum dispensing and is used at a service station and marina is a safety and industry violation.
