

# NOZZLE TALKERS

## The Original

The Nozzle Talker, created and patented by M&M in 1989, is by far the most effective signage element at the Gas Pump, why because it literally puts an advertised message right in the customer's hand. The contoured vinyl Nozzle Talker, easily slips over the OEM nozzle to create a customer seamless presentation.

## Changeable Messaging

The clear cap (sold separate) accepts a printable message. The cap and message can they be stretched over the boot creating a waterproof seal. The cap can be removed and the messaged changed to fit your need.

A selection of different custom fit sleeves to suit Catlow, Husky and OPW 3/4 inch automatic nozzles
